## Creativity: 5 Easy Steps To Becoming Creative

**Everyone can be creative because everyone has ideas.  
Here are 5 simple tips to help you become more creative:**

**1. Lower your stress levels.** Take care of little issues and worries before they become big problems. The less stress you have in your life, the more creative you'll become. To reduce stress – avoid caffeine, breathe deeply and relax.

**2. Ask more questions.** Asking questions is a key point of creative thinking. The only way to understand something new is to question the old. Here are some questions to get you thinking:

- How can I make this better?
- Why do we do it this way?

**3. Find out what makes you happy.** This should be an easy task, but some people can't think of more than two or three things. If you can only think of a few, try to find more.

**4. Try new things.** Do something that you have never done before. This can be as simple as reading a book on a topic you know nothing about or having a conversation with a person you've never spoken to before. Finding new ways of looking at the world will make life more interesting.

**5. Do something.** This is the step that turns you into a creative person. Thinking about doing something doesn't make you creative. Talking about doing something won't do it. The only way to be a creative person is to actually create something.

Pick up that pencil and draw! Write! Dance! It doesn't matter! **DO IT NOW!**

## Crazy for crayons

Reporter: Abigail Potter

**The publishing world has been taken by surprise because it seems that colouring isn't just for children. Grown-ups love it too. This year Amazon's top 10 best-seller list contains four colouring books for adults.**

Scottish artist, Johanna Basford, has sold around 2 million copies of her two colouring books.

Some see the books as a way to get away from computer screens. Ms Basford calls it a *digital detox*, a way to relieve stress.

When colouring, you have to complete a task which is challenging but not too challenging. It's repetitive but you don't become bored.

The patterns and shapes in these books also play an important part. Colouring in patterns is more relaxing than drawing on a blank page.

One of the most popular books is 'Secret Garden'. Johanna started creating her colouring books in 2013 as a way to relax. Now, her books are available in 14 countries around the world.

*"I'm excited and delighted at the success of the books," she said. "My aim was to make something that I loved and hope that other people like them too."*

Johanna's second colouring book is called 'Enchanted Forest'.
